

Ms. Shikany's WEEKLY NEWSLETTER

LEARNING FOCUS

Students will be able to identify and recognize the letter "L". Students will be able to create and build shapes from components. Students will be able to name shapes regardless of size.

Please welcome Henry to our classroom starting Monday!

THIS WEEK

We enjoyed learning about Groundhog Day and watching a video about what it means if Phil sees his shadow! For science, we did a walking water science experiment. We worked on making predictions and chatted about what happens when certain colors combine. We are excited for Valentine's Day next week.

DATES TO REMEMBER

Friday, February 12th – No School

February 15-19th – No School, Mid-Winter Break
